

# The Dark Passenger

Wolf

Do you remember  
Can you recall  
Can you dig deep in your soul ?

I never left you  
Never betrayed  
I was waiting for you to come through

We are one  
I am you  
Do you see  
You are me

We are companions  
Partners in crime  
In the face of evil  
So your face can shine

Walking in shadow  
Side by side  
Invisible shadow  
I'll be your guide

We are one  
I am you  
Do you see  
You are me  
Set me free

I'll never leave  
Never betray  
I am your shadow  
Your dark passenger

I'll never leave  
Never betray  
I am your shadow  
Your dark passenger
