

# Of Honour And Pride

Wolfchant

We drink mead and beer and wine  
Of everything the best and all is fine  
We sing today from honour and pride  
All friends and brothers are by our side

A story of a battle we will tell you now  
A battle we had won my friends - shout it out loud  
We march again when the morning come  
With courage in our hearts and the opponents will run

Saddle our horses we will ride into war together we fight and we die  
Tomorrow will come and will bring a new day and Odin is by our side  
We will bring the glory back in this land we will bring you the peace
