

# Ride To Ruhn

Wolfchant

[I.]

The morning red Is to be seen behind the mountains high  
This is called that blood will spilled and some men have to die  
Our fate already certain and I'm the chosen one  
Now it's in my hand - prepare everything for war

I must ride to Ruhn to meet with Illnar my old friend  
He have to help me organize - the Recondition fight  
We must educate new troops for the last attack  
Nobody see or recognize us here in Ruhn town

[Bridge:]

We are riding fast faster than the wind  
Our will is strong - We are not afraid  
Not afraid to die - Odins horde arise  
See the power - in - my - eyes

Now finally we arrived Illnahr is by my side  
To the other ones we will go will tell of our victory

[Chorus:]

Now the time is came and the old fields will awake  
We're united now and so much time has past the lands  
In the heart of the clan we hid ourselves these days  
And soon we will give you the mortal blow

Now the time is came and the old fields will awake  
We're united now and so much time has past the lands  
All together we will strike in 3 month we are free  
We send our prays to odin

Ride to Ruhn for victory  
We will arise the clan must flee  
Ride to Ruhn with power and steel  
We are here to fight and kill

[II.]

Illnar told me of his planes to bring the clan to fall  
I met some of my old friend they are ready too  
More thousands of our old soldiers swear me loyalty  
I tell them of my father and that he's on the way to Ahrren

Another 1000 of our soldiers come from the Ashwood town  
In 3 months in the night we have to finish everything  
Than we will meet us with all our soldiers here in Ruhn  
The same strike like in Ashwood we will come in the night  
Now you all know of our planes Illnar is not by my side

[Bridge:]

We are riding fast faster than the wind  
Our will is strong - We are not afraid  
Not afraid to die - Odins horde arise  
See the power - in - my - eyes

Now finally we arrived Illnahr is by my side  
To the other ones we will go will tell of our victory

[Chorus:]

Now the time is came and the old fields will awake  
We're united now and so much time has past the lands  
In the heart of the clan we hid ourselves these days  
And soon we will give you the mortal blow

Now the time is came and the old fields will awake  
We're united now and so much time has past the lands  
All together we will strike in 3 month we are free  
We send our praise to Odin

Ride to Ruhn for victory  
We will arise the clan must flee  
Ride to Ruhn with power and steel  
We are here to fight and kill
