

Stormwolves

Wolfchant

They came with many thousands
And they came in the night
They came with foreign flags
And brought us to fight
Burning fire, burning houses
But we never losing our pride
Again we march in battle
We all side by side

We are less but we are strong
We are brave and they are not
If we die in battle
With the sword in our hand

If we will fail we go to Walhalla
And they go to their hell
We are immortal
We will ride with
The Valkyries some day

With blood in our eyes
We are storming in the night
No fear of death
Under Wotans sign we born
To Walhalla we ride
For wictory and glory
My blade is cutting
The enemies veins
We are storm wolves
In the night

Storm Wolves
Strong like stones
Storm Wolves
Fast like the wind
Storm Wolves
Axe of the gods
Storm Wolves
Cold as ice

We are less but we are strong
We are brave and they are not
If we die in battle
With the sword in our hand

If we will fail we go to Walhalla
And they go to their hell
We are immortal
We will ride with
The Valkyries some day

With blood in our eyes
We are storming in the night
No fear of death
Under Wotans sign we born
To Walhalla we ride
For wictory and glory

My blade is cutting
The enemies veins
We are storm wolves
In the night

Wir sind wahre Wölfe
Wir waren euch immer treu
Sind nie vom Weg gewichen
Haben den Feind zerrissen
Werden stets weitergehen
Und in den Schlachten toben
Auch wenn der Sturm aufzieht
Das Haupt mit Stolz erhoben
