

Enemy Is in Your Mind

Wolfmother

Enemy is in your mind
Enemy is wasting time
You got everything you need
You need to plant the seed

You blame your wicked head
For the words you never said
You take this bitter pill
To try to break your will

Here we go again
It's taking you for a ride
Here we go again
The enemy is in your mind

You've been wandering at night
Hoping to feel alright
When are you going to learn how to stop this fight

How come you take this road
You cannot take it slow
Enemy is in your mind,
Enemy is wasting time

Here we go again
It's taking you for a ride
Here we go again
The enemy is in your mind

Here we go again
It's taking you for a ride
Here we go again
The enemy is in your mind

Enemy is in your mind
Enemy is in your mind
Enemy is in your mind
Enemy is in your mind
