

Feelings

Wolfmother

I sit and wonder at the TV screen
And wonder what does it means
Is it all an illusion

All the while it makes me smile
Put it in another file
Is it all an evolution

Would you like to go and entertain these feelings
I would really like to know

Another day another girl, looking to unrule the world
Looking for a solution
All the while it makes me smile
Put it in another file
Is it all an evolution

Would you like to go and entertain these feelings
I would really like to know

Feelings that make me sad
Feelings that make me feel so glad

Feelings that make me think
Of the best time I ever had

Yeah 1, 2, 3, 4

Would you like to go and entertain these feelings
I would really like to know

Feelings
