

I Ain't Got No

Wolfmother

I ain't got no reservation
I'm just sitting here listening to you

Talk is cheap if you can't walk the walk
I listened to you I heard what you said
Now you got to do it today

I ain't got no reservation
I'm just sitting here listening to you

I listened to you, I heard what you said
It don't mean nothing if it's just in your head

I ain't go no reservation
I'm just sitting here listening to you

I listened to the words you said and I know just how you feel
You can't preach to the converted I know the deal
Now it's coming to the time when you gotta walk the walk
You gotta make it happen man I can't listen to you talk

I ain't go no reservation
I'm just sitting here listening to you
