

Love is love and it lives out loud,
Shakes the world and standing proud,
Gives the power and gives the grace,
To make this world a better place,
You got hope when you got someone,
To share your tears when your hard day's done,
To hold you like there's a nuclear blast,
To peel away each indifferent mask.

Take it easy, baby,
Cos you got me,
While we got each other,
We've got luxury.

Easy baby, easy,
Easy baby, cos you got me.
Work is hell all I want to do,
Is lose myself in loving you,
Forget how much I don't get paid,
Forget everything except my babe.

And when the bailiffs knock the door,
Cos we can't pay our bills no more,
They can take the cooker and the tired TV,
So long as I've still got you loving me.

Take it easy, baby,
Cos you got me,
While we got each other,
We've got luxury.

Easy baby, easy,
Easy baby, cos you got me.
