

I Like It Hot

Wolfsbane

I like it hot!
Turn up the heat!
I wanna feel the sweat drip from me!
I like to feel like I'm on fire,
Burning through the peace and the quiet,
I don't want soft music!
I don't want those satin sheets!
Put on the Rock and Roll!
Turn up the heat!

I like it hot!
What kind of trouble do you want to get in?,
Light up the night with a little kiss!
Hold on tight,
Babe, dig in!
We'll fly to the sun and back again,
I'm thirsty,
and you know why,
But we'll sip on the juice of love tonight!

I don't have a big car,
I don't have a dime,
But I got enough love baby,
To make everything fine,

I like it hot!
What kind of trouble do you want to get in?
Light up the night with a little kiss!
