

Park it up, Babe!  
Reverse til it fits just right!  
That's the way I want it tonight.

Nurse, I'm sick!  
On you that uniform's just right!  
My thermometer fits your mouth real nice.

Yes, I've been bad, ma'am  
You can punish me til I cry  
I won't complain, cos it hurts so nice!  
What can I do for you?  
What can I do for you?  
Something wicked or something new?  
What can I do...  
I can't stop shakin'!

What can I do, Babe?  
Slaves do anything you like  
So long as you are cruel  
and the ropes are tight!  
I get the picture!  
I can see what you have in mind  
You didn't ask me here  
Just to sip on this cheap wine.  
What can I do for you?  
What can I do for you?  
Something wicked or something new?  
What can I do...  
I can't stop shakin'!

No need to be alone!  
We can make this hot night long  
Wild woman  
I want you for my own  
Round and round  
and up and down we go  
Round and round  
and up and down we go  
Round and round  
and up and down...

What can I do for you?  
What can I do for you?  
Something wicked or something new  
What can I do...
