

Annie

Wolfsheim

and you're sitting in your room
enjoying entertainment
and you're watching tv
colours bright and so enchanting

you couldn't be near her
wouldn't hear what annie says
when annie's sad
you couldn't be near her
wouldn't hear what annie says

and your waiting for your daily
thrill impatiently ...
to collect it for your private horror show
and you're watching moving
shadows live instead of you ...
and you ...
you don't know that annie's living next to you

jesus christ we love you so
since we saw your tv-show
suicidal tendencies, but no will to interfere
feel it coming over you ...
indifference ... indifference ...
choosing channels watching news
ignoring annie's point of view

you couldn't be near her
wouldn't hear what annie says
when annie's sad
you couldn't be near her
wouldn't hear what annie says

you couldn't be near her
wouldn't hear when annie laughs
... when annie laughs
you couldn't be hear her
wouldn't feel that annie ... annie ... annie loves
