

Now I fall

Wolfsheim

Sometimes I can't fall asleep
You lie beside me and I weep
Dancing shadows on the wall
Once you caught me ... Now I fall

Sometimes I feel love and trust
Turn to anger and disgust
Crawling darkness in between
No light in reach ... No silver sheen

Sometimes I feel so ashamed
To be mercilessly framed
Idle hands and eyes that stare
But no escape that I would dare

... love and trust ...

Pain increasing every day
No truth left I won't betray
One day our way leads to an end
Why d I care ... I understand

That it's too late for me to go
I should have left you years ago
Beyond this point of no return
Hatred's flame will ever burn

... every day ...
