

## Finality

### Woods of Ypres

When we all have gone  
to the silence of eternity  
To first be forgotten  
and lost in the records of the earth  
Could I still miss you then,  
in the time and space after life  
When no one is searching anymore  
and where we are nowhere to be found

We didn't spend our life together  
and I will miss you forever

The choice was mine  
To long for a time, that will never come  
Though we leave the world apart,  
I still went peacefully, quietly,  
with you, still, firmly  
in my heart.

I will wait forever.  
I wait...
