

Making Love (to The World)

World Party

Little baby, we know what you've been through
Come and join us, 'cause we want to change the world, like you
No need to worry, no need to cry
Cause we're all gonna be on the same side

When we love
When we love to make love to the world
When we love
When we love to make love to the world

There's something going on here that's not quite right
There saying that it's cool but it's just out of sight
I was swimming in the river, now I'm drowning in the sea
I mistreated the world, now she's coming for me

I was saved by the bell, 'cause I read all the signs
In the churches and houses, in the townships and mines
I went running through the forest, through the deserts and fields
And the looks on all their faces was, 'My God, this is real'

When we love
When we love to make love to the world
When we love
When we love to make love to the world
