

Baby I Need You

Worlds Apart

Baby I need you
Baby I need you in my life
And I want to hold tight
Only you and me together
Baby I need you
Baby I need you in my life
Hold on till the morning light
We can make it last forever

How can I find the way
And the key into your heart
Let this magic feeling grow
I can't live when we're apart
You are all that I can see
Come and make my dreams come true
Baby you're the one for me
I need love and want it with you

You took my heart away
Never give it back to me
All I want is you to stay
Free my soul you got the key
I could never leave you girl
What I feel for you is true
Baby cos you are my world
I need love and I want it with you
