

Back To Where We Started

Worlds Apart

Something is missing, I can tell by your eyes
Little by little, our love has dried
Let's talk it over, forgive and forget
We still got a whole lot of tenderness left

I want to feel what we once had
Be the way it used to be all over again

I want to get back, back to where we started
Back to when our love was strong
I want to get back, back to where we started
Back to where we both belong
Back to where we started from

Whatever it takes
Then that's what I'll do
'Cause, baby
I'm scared of losing you

I'll be your brother, your lover, your friend
But I don't want to ever, be lonely again
I want to feel what we once had
Be the way it use to be, all over again

Now we've come so far
Let's give it a second chance
Now we've come so far
Don't let it slip through our hands
'Cause I know we've still got so much left to give
