

Heaven Must Be Missing An Angel

Worlds Apart

Heaven must be missing an angel
Missing an angel child
'Cause you're here with me right now
(Your love is heavenly baby)

Your kiss filled with tenderness
I want all I can get
Of your sexiness
There's a rainbow over my shoulder
When you can my cup runneth over
You gave me your heavenly love
And if one night you came crying from above

(Heavenly to me baby)

Showers your love comes in showers
And every hour on the hour
You let me feel your loving power
There's a rainbow over my shoulder
When you can my cup runneth over
You gave me your heavenly love
And if one night you came crying from above
