

## Heaven Must Be Missing An Angel

Worlds Apart

Heaven must be missing an angel  
Missing an angel child  
`Cause you're here with me right now  
(Your love is heavenly baby)

Your kiss filled with tenderness  
I want all I can get  
Of your sexiness  
There's a rainbow over my shoulder  
When you can my cup runneth over  
You gave me your heavenly love  
And if one night you came crying from above

(Heavenly to me baby)

Showers your love comes in showers  
And every hour on the hour  
You let me feel your loving power  
There's a rainbow over my shoulder  
When you can my cup runneth over  
You gave me your heavenly love  
And if one night you came crying from above
