Hold Me One More Time

Worlds Apart

Woke up to reality on the day you let me go
Am I too blind to see?
Just let me know
Oh, I need to know for sure
Cause I want your love once more

Hold me one more time, cause baby I love you, love you, love yo
u
Hold me one more time, cause baby I need you near me
Hold me one more time, cause baby I love you, love you, love yo
u
Hold me one more time, cause baby I need you need you forever

You said that you feel alone, but don't just run away
I'll always be there for you
Please stay another day
Oh, I have to let you know
That I just can't let you go
