

Ray Of Sunshine

Worlds Apart

I didn't know it,
But you made me realise,
I tried not to show it,
But the strangest feeling's taken over me

But this time, I know it's right,
You turned my darkness into light;
Baby, I know, you'll be
The only thing I need

'Cos you are my girl, (my girl)
You're my little ray of sunshine (sunshine)
Breakin' through the cloudy day (my girl)
Do you know you're blowing my mind (my mind)
While you're blowing all the clouds away (my girl)
Never dreamed that you could be mine (be mine)
Never dreamed that you could feel the same (my girl)
You're my little ray of sunshine
Come and brighten up my everyday

I can't believe it,
The change you've made in me. (Changing me)
You know you're my everything.
You are my love.
You are the air I breathe.

So this time, I feel it's right,
Sure as daylight follows night,
Baby, I know, you'll be
The only one for me

You are ...

Baby, can't you see
You've taken hold of me
I will be faithful girl
You'll be my world
The only one for me

You are ...
