

Dehydrating

Wormed

Thermonuclear zone of polidium

Burning

All surgace contaminating the plagued planet

Reflections, pollution, Hexagonal eggs contain...

Lowering creatures

Wrapped up in the density of ice methane

The fire has been paralysed by the eclipse

I'll dehydrate this planet

Now I have the opportunity to escape

Protecting the unalterable ego

I'll dehydrate, this planet

My weapons are impelled

For supernatural forces

These doesn't serve with the insects

I should use the energy of this planet

In order to overheat it

Creating a tunnel of ions

To arrive to the nucleus

I'll dehydrate this planet

Absorbing the atmosphere completely

In abstract astral plane hairspring of energy

I'll dehydrate this planet

In that hell should be hot...

I'll dehydrate this planet, this planet I'll dehydrate

In abstract astral plane hairspring of energy

The creatures are making a strange metamorphosis

A lost culture become insect...
