

When this infinity reigns the order of this virtualized actual
metaverse
The final stages of evolution
Will be connected by wormholes
This is becoming a major threat, I've to mechanosynthetizing (m
y reactor)
Atomic precision it can only happen once the universes are alig
ned on to the curve
Arriving at the same time
Breaking the dark matter barrier
I feel like I'm being observed
By an extraterrestrial scanner
It's not possible
In a forgotten dimension
Far beyond the void
Cycloidal heterochrony
This is my descent, under my non-gravity fusion torch
Penetrating the membrane
Planets orbting me
Penetrating the membrane
Penetrating
My HUD an expanded prototype
Struggling to find every energy resource
Power descends bio plasma I need
Radiant flux heads meaningful answer gathered
Collapsing hosting of voxel
The end recedes
Driving in to the oblivion
Insufficient data found
Broken
Fragmented
Lost
