

Quantum effects breaking the law of ancient chronology  
Protectors accelerated brane encounter  
Voxel core  
New mutation arises  
Bio-technological brain  
Trapped in a region  
Ever decreasing size  
I accept what happens  
In the negative energy  
Virtual particles opposite way  
Wrapping space-time  
Enormous tension for the voxel  
Biological evolution euclidean geometry  
Broke down x  
Biological evolution euclidean geometry  
Survival advantage  
Along the rotation axis  
Last cosmic rays touch the brane  
Partially responsible for my genetic mutation  
Falling outside the physical singularity  
Traversable type wormhole  
Forever through time and spaces  
Would remain on the horizon  
Dragging inertial frames assigned  
Photons scattered  
I leave behind me a sea of radiation in a universe without dark  
matter  
Percolation: void universe emerges  
The conspectus: entered data in the future falling outside
