

Exterminate

Wormrot

Killing and exterminate
Darkest thoughts are not enough
Hate we feed are all diseased
Cause of death by all this shit
Feel the darkness depression
Get out from your boundaries you piece of shit
Acting violence just for attention
We don't need to witness your mindless shit
Self intoxication
There is no f**king future your monkey brain
Extermination
Feel the f**king darkness depression now
Build your hate, exterminate, pitful creep, been abused
Exterminate is what we f**king need
Intoxication for all the f**king deseased
Exterminate
