

# As Long As We're In Love

Wouter Hamel

I can't believe my love  
This feeling that you give me  
I'm really high above  
The world seems small and silly  
I look at what is left  
Of all my disappointment  
And I can't find a trace  
Of any kind of torment

I wanna stay out here till the end of time (end of time)  
I finally see the view out from this cold night (this cold night)  
I wanna stay untill the morning comes to wake us  
And see if life will take us  
As long as we're in love  
In love

I can't believe my love  
Cullings on my shoulder  
He's whispering sweet and low  
As we fly across the ocean  
I look at what is left  
Of all my disappointment  
And I can't find a trace  
Of any kind of torment

I wanna stay out here till the end of time (end of time)  
I finally see the view out from this cold night (this cold night)  
I wanna stay untill the morning comes to wake us  
And see if life will take us  
As long as we're in love  
In love

With your eyes so brown  
And your burly frown  
You could light it up the gloomy eastern skies

I've been waiting for  
Someone to adore  
To just hold me tight and see me through the night

I wanna stay out here till the end of time (end of time)  
I finally see the view out from this cold night (this cold night)  
I wanna stay out till the morning comes to wake us  
And see if life will take us  
As long as we're in love  
In love  
As long as we're in love  
(I'm in love)  
In love  
As long as we're in love  
In love  
As long as we're in love  
In love
