

Rue Damremont

Wouter Hamel

I know find you waiting for me
Even when the rain is pouring down
Even when i'm in this part of town that you despise
I can feel it just by thinking of your eyes

I know I find you waiting for me
Even when I told you not to come
Even when you know that you should run away from here
I can feel it just by thinking of you dear
I can feel it just by thinking of you dear
Even when you're not that close, you're always near

I know I find you waiting for me
Even when the rain is pouring down
Even when I'm in this part of town that you despise
I can feel it just by thinking of your eyes
I can feel it just by thinking of your eyes
I can feel it just by thinking of you dear
Even when you're not that close, you're always near
