

Cross of Iron

:Wumpscut:

Waiting at the new battle lines
Calling for the old Jesus shrines
Fearing all the things that might come
Fighting for the old chosen one

We did your best
For our families
For our folk

Fight for iron, bleed for iron
Kill for iron, die for iron

On the cross of iron
With the cross of iron
For the Cross of iron
Close your eyes for iron

We did our best, out here
Fighting for the lest, out here
We get our reward, we all
Decorated ward, we all

For the cross of iron
This is what we get
Breathing to forget

This is what me get, iron
Have me ever met, iron
People go to war, all time
But they dont come far, all time

Close your eyes
