

# Fuckit

:Wumpscut:

This is the night of the nights  
I'm ready down and out  
I'm searching you when I am through  
You'll see what's all about

I will find you and I am through

This is the night, when it moves, then fuck it  
Out for a fight, when it moves, then fuck it  
No compromise, when it moves, then fuck it  
My brutalize, when it moves, then fuck it

This is the night of the nights, then fuck it  
Out for a fight of the fights, then fuck it  
No compromise, brutalize, then fuck it  
My brutalize, when it moves, then fuck it

This is the night of the nights  
This is the fight of the fights  
No compromise, brutalize  
No compromise for the nameless fuck

This is a right one the best one  
That I can get  
One beauty here and one there  
But she's the best I get

So I take you and I am through

This is the night, when it moves, then fuck it  
Out for a fight, when it moves, then fuck it  
No compromise, when it moves, then fuck it  
My brutalize, when it moves, then fuck it

This is the night of the nights, then fuck it  
Out for a fight of the fights, then fuck it  
No compromise, brutalize, then fuck it  
No compromise for the nameless fuck
