

Women And Satan First

:Wumpscut:

Woman And Satan First

With our dead society
We will, we will fail
No big deals in interests
Same old, same old tale
Only hell is on the rise
Gets on civilized

Woman first and Satan first
Woman, Satan come first
Woman first and Satan first
The woman and Satan they come first

Nothing left that we could do
Culture going down
Even if we got a clue
Doubting with that frown

Who comes first? The woman first
Who comes first? (The) Satan first
At first

Heaven, help us cease ourselves
Cease the suffering
Satan hear us, we drew a blank
Cease our suffering
