

# Welcome To The East

Wyclef Jean

"When the East in the house, oh my God" (4x)

Yeah! This one's for the world right here  
Sizzla! (Mr. Kalonji just walked in the buildin')  
Big up to the far East rulers

Welcome to the East! "Oh my God"  
"When the East is in the house" sometimes I ask myself  
Will the violence ever cease "Oh my God"  
(You know you gon' like it, Kalonji, Wyclef)  
It's too hot on the floor man "Oh my God"  
It's too hot on the floor man  
It's too hot on the floor man "Oh my God"  
It's too hot on the floor  
They got the M-15's "Oh my God"  
We got the M-16's "Oh my God" (that's dangerous)  
It's too hot on the floor man  
It's too hot on the floor

Check it out  
I saw the ski-mask I didn't see the faces yo  
Saw the grenade, heard the explosions yo  
It get worse yo, I can't count the hearses  
That come out to masses, to churches, the verse is  
Do unto others as you would have done unto you  
Well welcome to the devil's penthouse, overlookin' hell's view  
David slew the philistines with a donkey jawbone  
The same jawbone, I used to make microphone  
The same microphone I use in New Jerusalem  
To tell E.T. MC's they gotta phone home  
Girl I see you in the club but your eyes full of pain  
Your man a wife-beater, find a new man  
And for my little sisters in the misery  
Sweet sixteen you ain't alone in the pregnancy  
I pour some liquors for my homies that passed  
Sit back while I'm writin' watch you fade in the paragraph...

Welcome to the East! "Oh my God"  
"When the East is in the house" sometimes I ask myself  
Will the violence ever cease "Oh my God"  
Deejay turn it up~!  
It's too hot on the floor man "Oh my God"

All things she plant the explosives with fuel in line  
We pe dimed, that's too much screw in time  
Cuttin you off, the halls reach the governor  
With pass enough plastic and the found for substance  
I prophecy they gon' call on the attack

Must I see there and keeping this a back  
Each can play guitar, cause those bands a saluting  
Everyday someone forments these drive-by shootings  
Will there ever be peace on the Earth  
With human acts we shall not have peace on the Earth  
Be good leave it up for firm and just  
What's going on in neighborhoods today is not respected

Knowin that her man  
Won't be back tomorrow, she cries
