

I Want For Nothing

Wye Oak

Say no to me
And I will love you more
Play me for keeps
Under garage door

I pressed his side
Be sad, grow over, float
All for a dream
More than the time we took

They think it's right
But they don't think like me
When I concede
It is a victory

It's not ideal
Ideals never last
I see my face
I wanna break in half

Since we fell
I am an empty well
I want for nothing
You want

And still you say
There is another way
I want for nothing
I want for nothing
I want for nothing

It's not a bruise
It is a spider bite
I wasn't forced
To stay awake at night

And he was tough
He knows not what he needs
I care for you
But not as you for me

Since we fell
I am an empty well
I want for nothing
You want

And still you say
There is another way
I want for nothing
I want for nothing
I want for nothing
