

Closer

Wynardtage

I feel your breath
In the rain
I have tried to live
But I can't

Come closer
Hold me in your arms tonight
You and me
Leaving all the world behind
Come closer
Hold me in your arms tonight
You and me
Leaving all the world behind

I touch your skin
In the rain
I can't go on
Without you again

Come closer
Hold me in your arms tonight
You and me
Leaving all the world behind
Come closer
Hold me in your arms tonight
You and me
Leaving all the world behind

I feel your breath
In the rain
I touch your skin
In the rain

Come closer to me
Leaving all behind
