

Flash Of Healing

Wynardtage

I want it unjust
Stop to resign
I want a healing
So divine
We move forbidden
Just clean it up
We got a reason
To final cut

So what my conscience cries
Care of the way so steep
Care of the way so steep

Washed out
My inner lies so deep
My inner lies so deep

And now my flesh comes up
To my inner blades
For once a chosen seeker
End all senseless debates
And by the shivering waves
And to the chemical mask
In such a flash of a healing
Feel like a god

Got to regain
Kill the beast
We took the place
In tender heat

We sweat the pumping
You walk the lines
I'll be a sinner
Dozend times

Chadouze moving
By the turn
Overcome
And make me learn

So what my conscience cries
Care of the way so steep
Care of the way so steep

Washed out
My inner lies so deep
My inner lies so deep

And now my flesh comes up
To my inner blades
For once a chosen seeker
End all senseless debates
And by the shivering waves
And to the chemical mask

In such a flash of a healing
Feel like a god
