

Revitalize

Wynardtage

When. Ohh deciding to trust you
By always accepting the risk and the fears
Senseless
Feelings are gone
Feelings are molten
Run down and flee
Drip down
My stolen dreams

And just while I'm mourn for
For the loss the rejoicing
All the vast atmosphere
Nowhere
You are gone
Sliding out
Seemingly endless
Tear down my dreams

So the move just came in
For an avalanche
A backyard of time
Is behind is behind

And the so called truth
Rescue
Revitalize
Narrow balance
Love is on a ridge
Ooh revitalize

We're denying as long
As we can't see the truth
Bare to us
Shining

But deception
Stare down discharge
Time to move in
Only my way
Just without you

No it wasn't easy
But I felt that is all done well for me

Finally
Fought for myself
Break for a new hope
That won't die anymore
And the wild turn
Giving me strength
Giving me strength
