

Sea Of Agony

Wynardtage

The underground begins to shake
You must visualize your wake
They will not cease never is there peace
There is just hate and no believe
The overloads have failed again
Can't you see the bitter end
No battle cries as the world dies
You regret all of your lies

Hiding your fears
Into my world of darkness
Expose your lies
Forget the cold waves of the night
Release your tears
Into my sea of agony
Show me your lust
Forget the sorrow of the past

I feel no love
I feel no live
I feel just hate all of the time

I feel no pain
I feel no time
I feel humanity
Is just a crime

I see no light
I see no shine
I see decay
In all mankind

You can't receive
Just tell me why

All humans seem depraved
They only see the grave
Continue on why we will only die
I see no heaven in the sky
The overloads have failed again
Won't you see the bitter end
No battle cries as the world dies
You regret all of your lies
