

White Frost

Wynardtage

I forgot the melodies
And The Key of life
My soul is trembling down
Down by your side
I feel the mountain frost
And the white noise
Take me away
From this path of life

And everytime I try to fight
The stupid times I'm walking through
The helpless part
A question why
I'm stuck into
The path of life

And everytime I try to fight
The stupid times I'm walking through
The lonely part
A question why
I'm hold into
The path of life

To all the lovely things
To all romantic strings
To the life I sing
I say goodbye

I forgot the melodies
And the key of life
My soul is trembling down
Down by your side
Someone said it ever flows
But they didn't know my hurts
My love is passing by
I see no light
