

Cool Ya

Wynonna Judd

Up in the valley, down on the mountain
Cool, cool, cool ya'
Pray for a drop and dance for a fountain
Cool, cool, cool ya'

Fallen daughter, somewhere some
Don't you know you're not alone?

Nobody loves you like I do
Nobody loves you like I do
Nobody loves you like I do
Nobody, nobody

Up in the valley, down on the mountain
Pray for a drop and dance for a fountain
When the storm rolls out, just quit counting
Let the hallelujah flow right through
When the well runs dry, let the river cool ya'
Cool, cool, cool ya'

Wilted flower, wounded stone
Rest your weary in these arms

Nobody loves you like I do
Nobody loves you like I do
Nobody loves you like I do
Nobody, nobody

Up in the valley, down on the mountain
Pray for a drop and dance for a fountain
When the storm rolls out, just quit counting
Let the hallelujah flow right through
When the well runs dry, let the river cool ya'
Up in the valley, down on the mountain
Pray for a drop and dance for a fountain
When the storm rolls out, just quit counting
Let the hallelujah roll right through
When the well runs dry, let the river cool ya'

Nobody
Up in the valley, down on the mountain
Pray for a drop and dance for a fountain
When the storm rolls out, just quit counting
Let the hallelujah flow right through
And let the river cool ya'
