

## Let's Make A Baby King

Wynonna Judd

Once upon a Christmas morning  
There was a pretty little baby boy  
It seems like I remember sadness  
Mingling in the joy  
For Mary saw the future  
And the sadness it would bring  
And that's when Mary started crying  
When she heard the angels sing

Let's make a baby king  
Let's make him Lord of all  
Let's give him everything  
Let's make a baby king

Now, you remember little King David  
He's the little baby's kin  
He's cousin to the man named John  
And I know you all remember him  
And John said, "Let's get ready!"  
The herald angels sing  
'Cause this old world needs to know  
The good news that I bring

Let's make a baby king  
Let's make him Lord of all  
Let's give him everything  
Let's make a baby king

Now we could use a revolution  
The world is turned upside down  
We need a new direction  
We've got to turn this whole thing around  
And we need a Lord to guide us  
Teach us wrong and right  
And we need a lamb to lead us  
Into the land of light
