

# Lost Without You

Wynonna Judd

I've got night vision, I can find my way home  
I don't get nervous when I'm out on my own  
I've got that sixth sense, I just follow the stars  
But wherever I am, I wonder where you are

I walk a tightrope, I follow my heart  
Just like a compass whenever we're apart  
I believe that love comes shining through  
I'd fly through the storm to find my way to you

'Cause I'd be lost without you  
I'd be slowly going crazy  
You're the place I wanna be, you're all I ever need  
I'd be lost  
Lost without you

I'm on a mission, it's on with the show  
I've got dreams that I'm chasing and places to go  
But the further I wander, here's what I find  
Wherever I am it's you that's on my mind

'Cause I'd be lost without you  
I'd be slowly going crazy  
You're the place I wanna be, you're all I ever need  
I'd be lost  
Lost without you

For so long  
I was caught up in the chase  
Trying to find my place  
And who am I to ever deny  
When the world got me down  
You came and you swept me away

'Cause I'd be lost without you  
I'd be slowly going crazy  
You're the place I wanna be, you're all I ever need  
I'd be lost  
Lost without you
