

You Make My Heart Beat Too Fast

Wynonna Judd

You make my heart beat too fast
You make me want this to last
You make me spend all my money
Ooh, I think I love you honey
You make me thank God I met you
You make me thank God she'll kiss you
You make me want your affection
I wanna make a connection

Baby, I'm psychedelic with the motion
And I can't come down
My heart plays dead but love changes
Everything go 'round and 'round and 'round and 'round

I wanna ride in your car
I wanna know where you are
Why don't you make me a fool?
Come on, baby, drive me to school

You make me want to be sweet
You make me walk down the street
You make me dance to your beat
And I'm gonna save you a seat

Baby, I'm psychedelic with the motion
And I can't come down
My heart plays dead but love changes
Everything go 'round and 'round and 'round and 'round

You're making me lose my focus
You've got some bad hocus locus
You make me think that you're clever
I'm gonna love you forever

Baby, I'm psychedelic with the motion
And I can't come down
My heart plays dead but love changes
Everything go 'round and 'round and 'round and 'round
Baby, I'm psychedelic with the motion
And I can't come down
My heart plays dead but love changes
Everything go 'round and 'round and 'round and 'round
