

# Your Day Will Come

Wynonna Judd

Pack up all your tears  
Bury the past  
Send them away  
Don't let 'em hold you back  
Love will find you again  
You'll find another way to begin  
And you'll trust in someone  
Your day will come

Throw it on the line  
Let your heart break down  
Know that at the right time  
Love is gonna come around  
Open up your soul and  
Let the moment hold you  
Don't push it away  
Oh I know you know  
You belong in the sun  
Your day will come

Don't go back there  
Don't tear yourself apart  
Just listen to you  
Remember who you are  
Wait for true love  
What's one more day  
You'll find the one  
Your day will come

Throw it on the line  
Let your heart break down  
Know that at the right time  
Love is gonna come around  
Open up your soul and  
Let the moment hold you  
Don't push it away  
Oh I know you know  
You belong in the sun  
Your day will come

Pack up all your tears  
Bury the past  
Send them away

Throw it on the line  
Let your heart break down  
Know that at the right time  
Love is gonna come around  
Open up your soul and  
Let the moment hold you  
Don't push it away  
Oh I know you know  
You belong in the sun  
Your day will come
