

# That's What's In My Head

Wynter Gordon

I don't know you got to know your tight  
Any place you could go tonight  
We could be a social  
Take a chance  
Girl you need a man in your life.

I don't need another man  
I'm sure you I gotta  
play it cool

the day, don't think about tomorrow  
You'll disappear  
That's what's in my head  
That's what's in my head  
That's what's in my head

. I gotta be spontaneous  
I don't wanna work to gain your trust  
Trust your luck have faith ..  
don't know  
Keep don't extra ..  
I don't take you down I take you up,  
We could be like a phone service  
Never breakin up.

And that's so I've tried to get away,  
Let's sleep with  
.take anyway you are .

the day, don't think about tomorrow  
You'll disappear  
That's what's in my head  
That's what's in my head  
That's what's in my head
