Oh my mind

Yeah, I'm losing it

Might as well burn the club down tonight Kill me with the beat til daylight Let it get hot, I'ma stay inside Til death do we party, with the music I die Pour a little more into your cup The sweeter the juice the better your luck Let's get loud as we celebrate life Til death do we party, with the music I die Oh my mind Yeah, I'm losing it Take my life But I'm cool with it So high on the music So alive, I don't know what to do with it Movin' my body like I'm winning a fight Like dancing with the devil, I can do this all night Wearing all black like a brand new bride Til death do we party, with the music I die Oh my mind Yeah, I'm losing it Take my life But I'm cool with it So high on the music So alive, I don't know what to do with it Oh my mind Yeah, I'm losing it Take my life But I'm cool with it I really don't care, I'ma go all night Til death do we party, with the music I die Whoa, oh, whoa, oh, whoa, oh, whoa Whoa, oh, whoa, oh, whoa, oh, whoa Whoa, oh, whoa, oh, whoa Whoa, oh, whoa Let the music release our pain With the music we're all born again With the music we die With the music we fight We surrender ourselves here tonight Oh my mind Yeah, I'm losing it Take my life But I'm cool with it So high on the music So alive, I don't know what to do with it

Take my life
But I'm cool with it
I really don't care, I'ma go all night
Til death do we party, with the music I die

I die, I die Til death do we party, with the music I die I die, I die Til death do we party, with the music I die
