Surely must have lost her mind, she found it, break time
I'm Jordan, and Tom, 23 in a blur hot dawg
Double dose tomorrow never died,
I spot, pull up right up in her eye
Don't you see me coming all up in your nose
Don't you see me running? Got there
I'm lavish, I'm so faded,.. catch it outdated
Expired? I'm the mother-fucking boss you fired
I'm higher, and higher, taste chocolate, could die for
Or some bake-like shit, get off my dick
