

# Waiting

Wynter Gordon

You led me to believe  
That some day we would be  
More than a question mark  
A possibility  
We're living in denial  
'Cos this just can't be true  
I could still wait all my life  
To die right next to you

I'll be waiting around for you  
I'll be waiting around for you

I'll be holding on another day  
Don't know how we gonna make it  
But I know we can make it alright  
All I know is there's no other way  
Don't know how we gonna make it but I  
Know we can make it alright

This ain't no sweet surprise  
This love was filled with time  
There's such a happiness  
I feel it, it's alive

I've been waiting around for you  
I've been waiting around for you

I'll be holding on another day  
Don't know how we gonna make it  
But I know we can make it alright  
All I know is there's no other way  
Don't know how we gonna make it but I  
Know we can make it alright

At the moment I feel you in my heart  
Yeah I feel it  
I don't know where to start  
Gotta get this I can't control it  
If I can see it, still believe in

I'll be holding on another day  
Don't know how we gonna make it  
But I know we can make it alright  
All I know is there's no other way  
Don't know how we gonna make it but I  
Know we can make it alright

I'll be holding on another day  
Don't know how we gonna make it  
But I know we can make it alright  
All I know is there's no other way  
Don't know how we gonna make it but I  
Know we can make it alright
