

If you want to go with us, be ready  
You must bear it all  
There are many answers,  
But we wait for the right one,  
Right one  
We hope that the bell will toll

In that case we have to be faster  
In that case we have to be closer  
In that case mainly be better

We want more time and less pressure  
And forever, we found what is inside of us  
We're one team together and forever  
We all feel the same, we all feel the same

In the back of the book,  
The answer isn't always there  
Days go by real fast, but we get nowhere  
Ready with a pen in our hands,  
In our hands, we are closer to it,  
We are  
We want more time and less pressure

In that case we have to be faster  
In that case we have to be  
In that case we have to be closer  
In that case we have to be

We've found what is inside of us  
What is true and these are our chances  
We are one team together

But we can go, always go back, back,  
Return and take all the bad things back,  
Go back and take all the bad back,  
All the bad things back

We want more time and less pressure  
And forever, we found what is inside of us  
We're one team together and forever  
We all feel the same, we all feel the same
