

I'm Yours

X-Core

Why, I feel it's never
As good as it would feel ever
Amazing living between me and you
Stay with me tonight
Get up and live, start dating me
Where exactly are you from
Live, live tonight

I'm yours
I am delirious
This curse
Nothing is serious
It feels like I'm going nowhere, going nowhere
I'm not used to being amazed and delirious
It feels that I don't belong anywhere

Tonight, will last forever
I need you
Tonight, will be together
I'm alone again, I'm crying, I'm dying
Would fly millions of galaxies for you
I'd like you to take me with you

I'm yours
I am delirious
This curse
Nothing is serious
It feels like I'm going nowhere, going nowhere
I'm not used to being amazed and delirious
It feels that I don't belong anywhere

Your world is amazing
Is amazing
Is amazing

Kidnap me into your galaxy
Take me into your fantasy
I'm cursed in time

I'm yours
I am delirious
This curse
Nothing is serious
It feels like I'm going nowhere,
Going nowhere

I'm yours
I am delirious
This curse
Nothing is serious
It feels like I'm going nowhere, going nowhere
I'm not used to being amazed and delirious
It feels that I don't belong anywhere
