

Someone Said

X-Core

About happiness a human being shares
Meanwhile sadness it keeps to itself
It's sad that ignorants are so self-confident
While clever ones are full of doubts
Are full of, are full of doubts

Smiling is a rest for tiredness,
Hope for the weak, minded
Helps to be stronger,
Kills all the sadness,
That must be reminded

Baby, baby, someone said, yeee
When your life is at its worst, at its worst
Baby, baby, turn your face, yeee
To the sun and all shadows will fall behind

I'm a weak person, but in my weakness is,
My strength, my sadness doesn't hurt
A person's biggest luck is if he can live to die
Friendship is like a golden thread
A golden, a golden thread

Smiling is a rest for tiredness,
Hope for the weak, minded
Helps to be stronger,
Kills all the sadness,
That must be reminded

Baby, baby, someone said, yeee
When your life is at its worst, at its worst
Baby, baby, turn your face, yeee
To the sun and all shadows will fall behind

The hated ones are those who got to the top
Out their own will
Which people call luck, is the moment,
When they stop to fear
It's the moment when they stop to fear

Stop to fear, stop to fear, someone said
It's better to believe
Stop to fear, stop to fear

Just believe, just believe, someone said
It's better not to leave
Just believe, just believe
