X-Ecutioners

i was in this club, just the other day, and I saw the x-ecutioners and it made me want to say, they were cutting it up, scratching it, with bolth hands, they found it so good they made everybody dance, check it out.

As the edge kept spinning they were rockin' the crowd, everybody was moving to the hip-not sound, they were cutting it up, scratching it, with bolth hands, they found it so good they made everybody dance, check it out.
