

X

X Japan

Telling the awakened city goodbye
Expose your body to the raging excitement
Her eyes have lost their light
You can't manipulate your angry and burning heart

Flowing through the disorderly love, you have lost everything
Your heart will break within the screams going through your body

Cast aside rusted words
Set free your breaking heart
Turn your back on the pouring rain
There are no words from the gasping people

You're lost in buried time, you're wandering around in nightmares
Your heart will break within the quaking noise

X, try to feel it, X, try to shout out, X, cast off everything
X, try to feel it, X, try to shout out, X, let your heart burn

X, You don't have to hesitate
X, Get yourself out
X, You know You are the best!
X, Let's get crazy!

X, try to feel it, X, try to shout out, X, cast off everything
X, try to feel it, X, try to shout out, X, let your heart burn

Flowing through the disorderly love, you have lost everything
Your heart will break within the screams going through your body

X, try to feel it, X, try to shout out, X, cast off everything
X, try to feel it, X, try to shout out, X, let your heart burn

X, try to feel it, X, try to shout out, X, cast off everything
X, try to feel it, X, try to shout out, X, let your heart burn
